## PERSONAL PROFILE

A highly motivated and skilled Ugandan computer science professional, currently serving as Lead Mobile App Developer at Kolaborate Platforms Africa (Ntinda). I possess a strong foundation in software development, mobile app creation, and system design. Proficient in building scalable applications using Flutter, Next JS, React, Javascript, Python, Laravel, Firebase, React Native, Convex, Vercel and Supabase, with a proven track record of delivering innovative solutions, such as the Salary Requisition Management System and agro-marketing apps. A collaborative team player with excellent problem-solving skills, a passion for leveraging technology to drive efficiency, and a commitment to continuous learning in emerging fields like machine learning and UI/UX design. Dedicated to delivering high-quality, user-centered solutions while upholding professional ethics and confidentiality.
